

Serv1 to Serv2	Information Repository (IR)	Enactment Engine (EE)	Notification Service (NS)	Service Registry (SR)	Bio Services (BS)	Portals (P)	Gateway (GW)	Text Analysis Service (TAS)	Ontology Services (OS)	Distributed Query Processing Service (DPQS)
Information Repository (IR)	Not relevant to the myGrid architecture		- Publish/Unpublish event - Keep alive	- Register/Unregister - Keep alive						
Enactment Engine (EE)		Not relevant to the myGrid architecture	- Publish/Unpublish event - Keep alive	- Register/Unregister - Keep alive						
Notification Service (NS)	- Check if alive	- Check if alive	Not relevant to the myGrid architecture	- Register/Unregister - Keep alive - Check if available	- Check if alive		- Check if alive	- Check if alive		
Service Registry (SR)	- Check if alive	- Check if alive	- Publish/Unpublish event - Keep alive - Check if alive	Not relevant to the myGrid architecture	- Check if alive		- Check if alive	- Check if alive	- Check if alive	- Check if alive
Bio Services (BS)			- Publish/Unpublish event - Keep alive	- Register/Unregister - Keep alive	Not relevant to the myGrid architecture					
Portals (P)						Not relevant to the myGrid architecture	- All operations supported by the GW			
Gateway (GW)	- Store - Retrieve - Find	- Execute workflow	- Subscribe/Unsubscribe to/from event - Keep alive	- Register/Unregister - Keep alive - Find - Browse	- All operations supported by the BS	- Call backs (notifications) to the P	Not relevant to the myGrid architecture	- All operations supported by the TAS		- All operations supported by the DPQS
Text Analysis Service (TAS)			- Publish/Unpublish event - Keep alive	- Register/Unregister - Keep alive				Not relevant to the myGrid architecture		
Ontology Services (OS)				- Register/Unregister - Keep alive					Not relevant to the myGrid architecture	
Distributed Query Processing Service (DPQS)	- Store - Retrieve - Find			- Register/Unregister - Keep alive						Not relevant to the myGrid architecture
